

# Help: What is the Resizr.com Privacy Policy?

1) We don't share your pictures without your consent. You could consent to us sharing your image by using features of the program specific to our giving data to others, like the "E-Mail This Photo" option. (By its very nature, emailing a photo is sharing that photo!)

2) We don't share your e-mail address with advertisers.

3) We won't spam you. However, we do reserve the right to send very infrequent site updates.

Unique solution ID: #1021
